

STATISTICS UPDATE: INTERNATIONAL MERCHANDISE TRADE STATISTICS

DECEMBER 2019 PROVISIONAL HIGHLIGHTS

RELEASE DATE: 25th March 2020

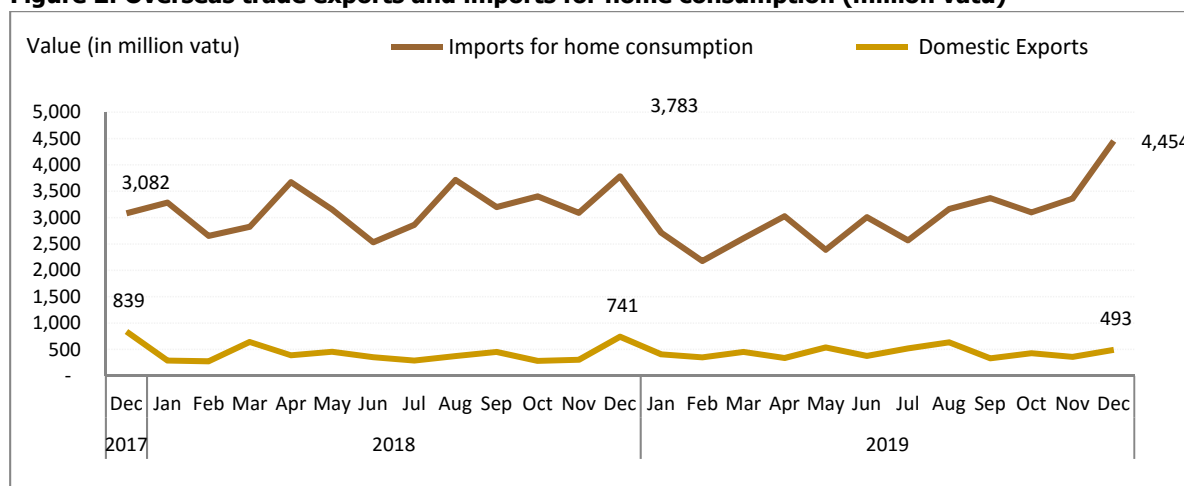

Figure 1: Terms of trade December 2018 and December 2019 (million vatu)

Merchandise trade provisional figures for December 2019 increased deficit balance of VT 3,873 million on increased value of imports VT 4,454 million and lower exports that of VT 581 million vatu.

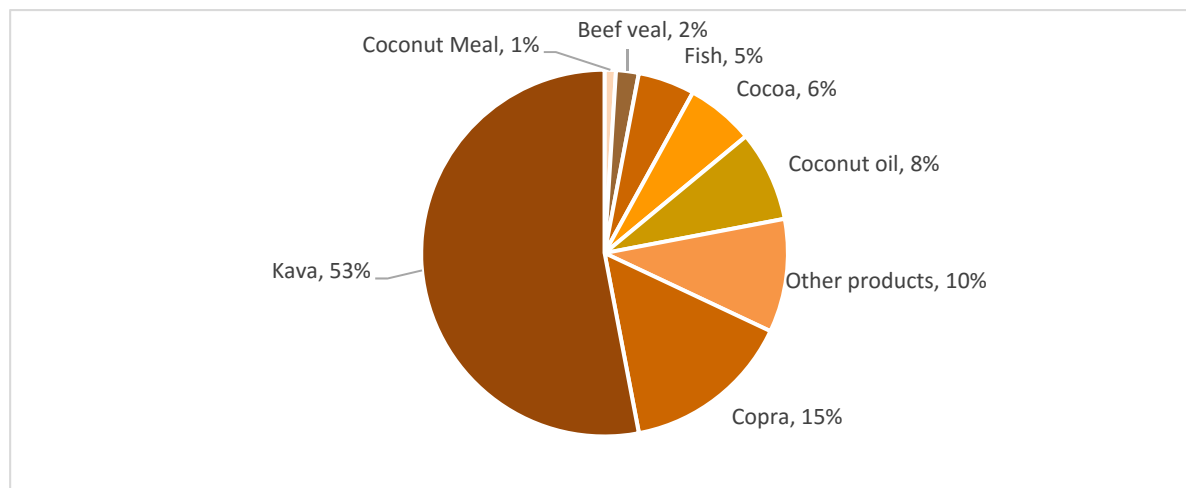

Domestic export earnings (excluding re-exports) decreased 33% in December 2019 over December 2018. Export decreases were attributed mainly by kava, sawn timber and coffee.

Figure 2: Overseas trade exports and imports for home consumption (million vatu)

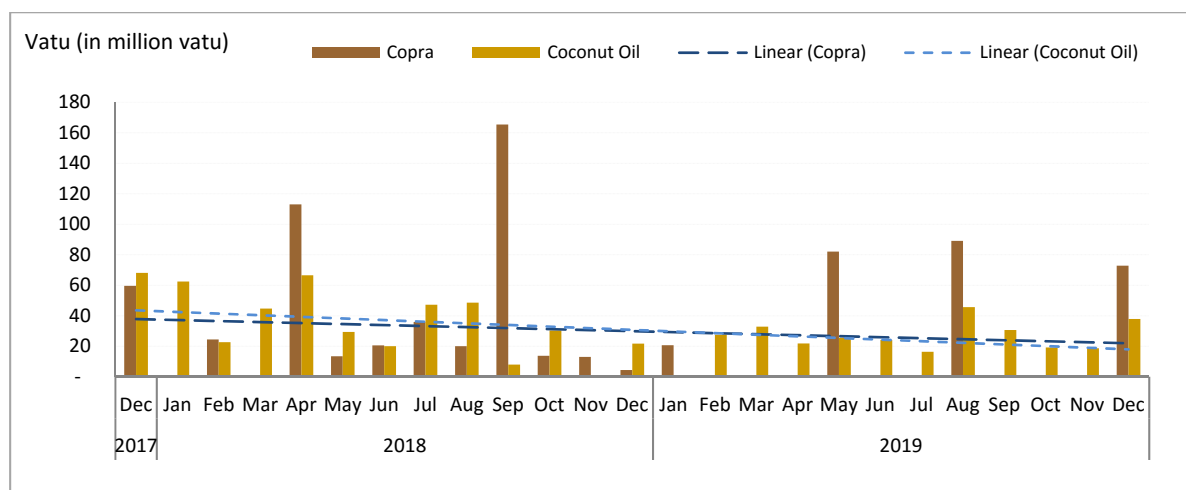

EXPORTS

Figure 3: Share of main domestic products total value

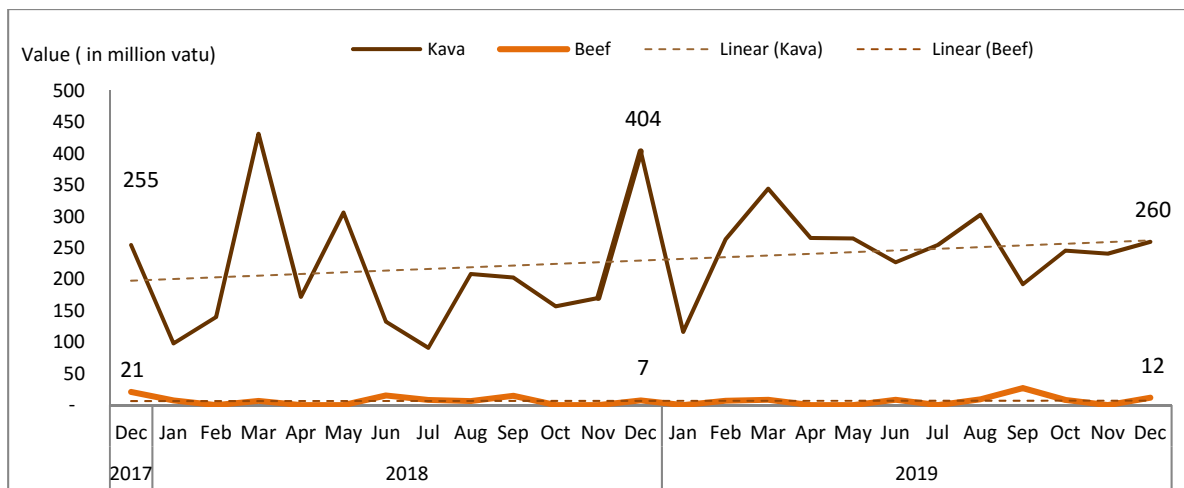

The main shares of domestic products total value in December 2019 were: Kava at 53%, followed by copra at 15%, coconut oil at 8%, cocoa at 6%, fish at 5%, beef at 2% and coconut meal at 1% while other products accounts for 10%. Other products consisted of animal products, vegetable products (citrus fruits), prepared foodstuffs and base metals and articles thereof (waste and scrap of cast iron and steel).

Figure 4: Exports of Coconut Products (million vatu)

Coconut product exports totalled to VT 115 million in December 2019, reflecting an increase of VT 89 million vatu over December 2018. The main contributors to this increase were exports of copra and coconut oil.

Figure 5: Exports of Kava and Beef Products (million vatu)

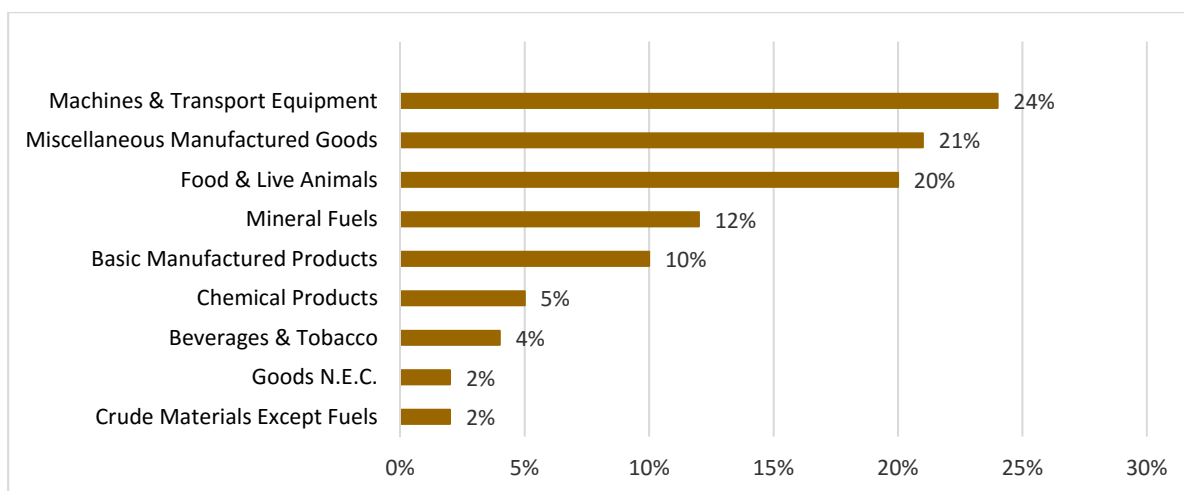

Kava exports in December 2019 was VT 260 million vatu, decreased by 36% or VT 144 million in value over December 2018. However, beef exports increased at 58% or VT 4 million. The country destinations for kava exports were: New Caledonia, Fiji and kiribati, followed closely by United States of America, while Japan remains the main destination for beef exports.

IMPORTS

In terms of share of commodity groups to total imports receipts, machines and transport represented the largest value (C.I.F) of VT 1,049 million or 24% of the total imports for home consumption in December 2019, followed by miscellaneous manufactured goods at 21%, food and live animals at 20%, mineral fuels at 12%, basic manufactured products at 10%, chemical products at 5%, beverages and tobacco at 4%, goods not classified elsewhere and crude materials except fuels at 2% each respectively.

Figure 6: Share of main import commodities total value

Compared to December 2018, miscellaneous manufactured goods increased at 197% or VT 628 million in December 2019, followed by crude materials except fuels at 192%, beverages and tobacco at 157%, basic manufactured goods at 31%, machines and transport at 26%, goods not elsewhere classified at 23%, chemical products at 12%, food and live animals and oils, fats and waxes at 1% each. Except, crude materials decreased at (49%).

DATA SOURCE AND REVISIONS

The Vanuatu National Statistics Office receives import and export statistics data on quantity and value from the Department of Customs and Inland Revenue's ASYCUDA World merchandise trade processing system.

The Vanuatu National Statistics Office will be releasing Provisional International Merchandise Trade Statistics highlighted in the monthly releases. On occasion, revisions are made to import and export entries after publication. Where revisions are necessary, these are highlighted in the statistical tables. The Vanuatu National Statistics Office makes every possible effort to check the data and resolve inconsistencies and anomalies with the Department of Customs and Inland Revenue prior to publishing of actual figures in Quarterly or annual Statistical Indicator report.

CONCEPTS AND DEFINITIONS

- **Imports for Home Consumption** are goods, materials or articles purchased in other countries and brought into Vanuatu and cleared through customs procedures for home consumption. Imports for home consumption are valued on a C.I.F. (cost, insurance, freight) basis. This means that for each commodity, the value recorded includes the factory price, the cost of packaging, the freight cost from overseas to Vanuatu ports and the insurance.
- **Exports** are expressed in F.O.B. (free on board) prices. It means the total value includes the production cost and the transport cost to the Vanuatu port of export.
- **Imports for re-export** refers to imports destined to be re-exported without having undergone any transformation, or only minor ones. This is especially the case of duty free goods and fuel "imported" into the country and sold to non-resident airline operators or ships.
- **Re-exports** are goods, materials or articles exported in the same condition as they were imported, and imported goods, which have undergone operations such as repair, repacking, or bottling which leave them essentially unchanged before exporting.
